Ayer's
...rry Pectoral,

...eases of the Throat and Lungs, ...s Coughs, Colds, Whooping... ...ugh, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that Cherry Pectoral will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy, it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, Cherry Pectoral is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

Ayer's
Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

A PRETTY TOUGH PLUG OF TOBACCO.

One day last month when trade was dull, a Vicksburg grocery clerk procured a piece of sole-leather from a shoemaker, painted it black, and laid it aside for further use. Within a few days an old chap from back in the country came in and inquired for a plug of chewing-tobacco. The piece of sole leather was tied up, paid for, and the purchaser started for home. At the end of the sixth day be returned, looking downcast and dejected, and walking in the store he inquired of the clerk:

"Member that terbacker I got here the other day?"

"Yes."

"Well, was that a new brand?"

"No—same old brand."

"Regular plug terbacker, was it?"

"Yes."

"Well, then, it's me; it's right here in my jaws," sadly replied the man. "I knowed I was gittin' purty old, but I was alwus handy on bitin' plug. I never seed a plug afore this one that I couldn't tear to pieces at one chaw. I sot my teeth on to this one, and bit and pulled and twisted, like a dog at a root, and I've kept biting and pulling for six days, and there she am now, the same as the day you sold her to me!"

"Seems to be a good plug," remarked the clerk, as he smelled of the counterfeit.

"She's all right, it's me that's failing!" exclaimed the old man. "Pass me out some fine-cut, and I'll go home and deed the farm to the boys, and get ready for the grave!"

PARTED BY A DREAM.

Bundy has been married two weeks, and has left his wife. Bundy is a little man, and his wife weighs 240 pounds. About ten days after marriage Bundy was surprised, on awakening in the morning, to find his better half sitting up in bed crying as if her heart would break. Astonished, he asked her the cause of her sorrow, but receiving no reply he began to surmise that there must be some secret on her mind she withheld from him, that was the cause of her anguish, so he remarked to Mrs. B. that as they were married she should tell him the cause of her grief, so that if possible, he could avert it, and after considerable coaxing he elicited the following from her:

"Last night I dreamed I was single, and as I walked through a well lighted street I came to a store where a sign in front advertised husbands for sale. Thinking it curious, I entered, and arranged along the wall on either side, were men with prices fixed to them. Such beautiful men; some for one thousand dollars, some for five hundred dollars, and so on down to one hundred and fifty dollars; and as I had not that amount I could not buy."

Thinking to console her, Bundy placed his arm lovingly around her, and asked, "And did you see any men like me, there?"

"Oh, yes," she replied, drawing away from him, "lots like you; they were tied in lots like radishes, and sold for ten cents a bunch."

Bundy got up and went to ask his lawyer if he had sufficient ground for divorce.

TO PREVENT RUST.—The simplest way to prevent the oxydation of polished iron and steel goods is to dust them over with quick lime. Where the articles are required to be preserved for many months (such as polished steel grates) strips of brown paper freely covered with powdered lime are to be wrapped round the bars; or they may be placed in cases, and the interstices filled up with quick lime. Pianoforte wire and small goods are preserved in the same way. The rationale of the method is this. Steel will not oxydize in dry air. The presence of quick lime, from its hygrometric properties, secures dry air, and thus indirectly the lime preserves steel from rust.

Either because the native boys have nothing to make them lively and active, or for some other reason, New Zealand has appealed to England for an importation of bumble-bees.

THE Texas Constitutional Convention has before it a proposition forbidding judges, prosecuting attorneys and jurors from officiating while intoxicated. Illinois has a similar provision in its statutes.

DECATUR, ILLINOIS:

Republican County Ticket.

For County Treasurer,
GEORGE M. WOOD.
For County Surveyor,
GEORGE V. LORING.

[Communicated.]

Those who speculate in county orders are generally opposed to Park. He keeps county orders at par and that don't suit the shavers.—*Tribune.*

Very true, Mr. Tribune, that those whose speculate in county orders are generally opposed to Mr. Park, for even they are a part of our voting population, and it is just as true that all other classes of voters and taxpayors as well are now *generally opposed to Park* throughout our entire county.

Now we had supposed that county orders were kept at par by county revenue paid in by our tax payers, but the *Tribune* says *He, Park,* keeps them at par. Does *He, Park,* buy them in with his own funds or with *surplus fees* collected by him, or otherwise? Please explain.

Now in spite of the very thin twaddle of the *Tribune,* which either emanates from the ignorance of the writer or is intended to play upon the ignorance of its readers, every intelligent man knows that there is *no such thing as fees collected by the Treasurer.* His business is to collect the net revenue assessed against the tax payers of the county, and every dollar of funds collected by him and by him used for salary, or appropriated for clerk hire or any other purpose, leaves just exactly that many dollars less in the treasury of Macon county. Now, our county board fixed the amount to be paid by the county to the treasurer, virtually allowing Mr. Park to retain out of the county funds $1,750 per annum for his salary, and no more, for that or any other purpose.

And now we ask you, how much has he appropriated? Has he confined himself to the amount fixed by the Board, or has he not already required of the county more than $1200 in addition to the amount fixed by the Board? How say you, Mr. Reform?

A Contrast.—Our county treasurer, Mr. VanGundy, received $1,008.20 as the portion of the refunding fund belonging to Piatt county. Macon county received $10,735.31, or two and a half times the amount in Piatt county. The expenses for extra clerk hire as given in the supervisor's report in last week's *Herald,* was $75.00. In Macon county with only two and a half times the amount of refunding fund, it was, as shown in the supervisors' proceedings of that county, $585 38, or very nearly eight times as much We call this a pretty good showing for our county treasurer, and it illustrates the way in which things are conducted in his office.—*Piatt Co. Herald.*

But you needn't brag about it. Let us know, if you please, whether your treasurer has kept county orders at par, as ours claims to have done.

Even the Springfield (Mass) *Republican* concedes that Mr. Rice will be elected over Governor Gaston, although the nomination was the defeat of its pet, Charles Francis Adams. There seems to be scarcely any doubt about the matter. The breach of last year in the Republican party of Massachusetts has been healed, and will be forgotten soon.

This will be a very exciting week in Ohio. It is the last week of the political campaign, which will close with the election, on Tuesday of next week. Both parties are marshaling all their forces, and public meetings and addresses by able speakers are daily or nightly events in every part of the State.

The Boston *Globe* speaks thus of the head of the Republican ticket in Massachusetts: "Mr. Rice is indeed a man in every way worthy of the nomination and eminently qualified for the office of Governor. He has first-class ability, undoubted integrity, fine culture, a huge and generous public spirit, and the sterling merits which command respect and win confidence. He is a candidate worthy the united and hearty support of the party, and would make a Governor of whom the State might well be proud.

On Monday, the 25th, elections are to be held in Oregon and Colorado In Oregon a congressman is to be elected, to fill a vacancy caused by death, and, as in the last election, the Republicans, Democrats, and Independents have each a candidate In Colorado, the election will be for members to a constitutional convention, preparatory to the admission of the State into the Union, under the enabling act, passed March 3 last.

KNOWS HIM.

The following, from the Springfield *Journal's* report of yesterday's conference proceedings, was evidently written by some one who thoroughly understands the Elder's peculiarities:

Elder Buck obtained the floor upon a question of privilege, and endeavored to make a gentlemanly apology for his remarks of last Friday grossly personal to "Transfers." He seemed to withhold apology to Dr. Goodwin, at whom most of the original remarks were believed to have been directed, and that gentleman found cause to reply, courteously. The point of difference between the two brethren seems to be that in addition to endorsing the demand of the laity for an elective presiding eldership, Dr. Goodwin has not that degree of veneration necessary to a belief that all the ancient usages are best adapted to modern times, while Elder Buck is one of a type of men who cannot bear the idea that old usages should be supplanted by new, and is very combative in the defense of old manners and customs, which he regards as the laws of the Medes and Persians —never to be changed.

A FARMER ON FINANCE.

Wheatland, Oct. 1, 1875.

Editors Republican:—I was not a little amused while reading your extract from the opening speech of the great German Apostle of Finance in Ohio. He is, I suppose, fresh from the Fatherland, and perhaps passed through the Mother Country, in both of which they have specie payments to their hearts' content; they never have any financial panics, everybody is rich, labor strikes are unknown, they never have inflation of the currency nor the detestable "greenbacks"; where everybody is happy and contented, and they never have to pass laws to prevent their citizens from straying away and coming to this land of great rivers, grant lakes, long railroads, rich soil and "rag money." A few noble spirits like the honorable Senator, Hosing, of Chicago, and others nearer home, with no sordid motive whatever, but filled with the most benevolent and philanthropic desires, have found their way to this country to teach this benighted people —not like DeForrest B. Winchell, but without money and without price—how to manage their financial affairs. Posterity will certainly owe them a debt of lasting gratitude.

One point Mr. Schurz made was that "if congress did issue more currency, the rich man would call in his money before the rise in gold, or the depression in greenbacks, and grow richer by his foresight, while his debtors would become poorer." If this be true, why is it that the moneyed men of the country are opposed to the issuing of more greenbacks? Many of the poor men of the country, and a goodly number of the rich ones, think that more greenbacks and less national bank paper would be a great benefit to the industrial classes, and if the rich men are to be made more wealthy still, (for that is what most of them want,) why can't we all agree on one point, at least? The only way I can account for it, is in the supremely disinterested spirit manifested by the honorable Senator from Germany, and his co-workers. If there were enough examples of such disinterestedness the millenium would certainly not be far distant.

Farmer.

No man ever prospered in the world without the co operation of his wife. If she unites in mutual endeavors or rewards his labors with endearing smiles, with what confidence will he resort to his merchandise or his farm, fly over the land, sail upon seas, meet difficulty and encounter danger, if he knows that he is not spending his strength in vain, but that his labor will be rewarded by the sweets of home! Solicitude and disappointment enter the history of every man's life, and he is but half provided for his voyage who finds but an associate for happy hours, while for his months of darkness and distress, no sympathizing partner is prepared.

The Grand Lodge of the Independent Order of Order of Odd Fellows will meet at Peoria at 7 o'clock on the evening of Tuesday, October 12th, and will continue in session three days The Grand Encampment will meet at the same place, at 9 o'clock in the morning. Elaborate preparations have been in progress for some time, and the meeting will no doubt be the largest and most interesting of any held for years. Prominent Odd Fellows from abroad have signified their intention of being present, and there is every reason to believe that several thousand visitors and delegates will be in attendance

There is at present $2,000,000 more of paper money in circulation in this country than there was in 1874, and $167,000 more than in 1864. Yet, in the face of these facts, there are persons absurd enough to say there is not currency enough for "the demands of business." The trouble is there isn't business enough to demand the currency.—*Indianapolis Journal.*

Terrible Tragedy at Carlinville, Ill.

A DOUBLE MURDER AND SUICIDE.

Negro Troubles in Mississippi

MOVEMENTS OF THE PRESIDENT.

The Winnebago County Duel.

NEW YORK CANAL FRAUDS.

Memphis, October 5.—The following private telegram was received this morning from Helena: "The negroes threaten to burn Friar's Point, Miss., to-day. Several whites from there reached here at two o'clock this morning for arms and assistance. A good many men have just left here for there.

A gentleman from Friar's Point says, in connection with the affairs at P'nce, that Brown, the colored Sheriff and candidate for re-election, came to Memphis last week and purchased a considerable quantity of ammunition, which he distributed among his friends at Friar's Point.

At the Democratic Conservative Convention held there on Saturday night, a ticket in opposition to the one headed by Brown was nominated.

Senator Alcorn criticised Brown's official career in a speech. Brown was present, became much excited, and demanded the privilege of replying, but Judge Rex, chairman, fearing blood shed, adjourned the meeting. Brown then announced that he would call a meeting on Monday night, and it is supposed that the trouble apprehended grow out of this meeting last night.

A telegram was received to-day from a prominent steamboatman at Helena asking for arms and men to go to Friar's Point. Later private telegrams from Helena, received here to-night, say all the women and children have left Friar's Point. The men are forming in line and a fight is momentarily expected. Assistance is greatly needed. A boat load will probably leave here to-night.

A special from Helena at 10:30 o'clock to-night says great excitement prevails at Friar's Point. It is reported that the negroes 300 strong were within four miles of the town, and General Chalmers, who was in charge of the whites, went out and met them and gave them ten minutes to disperse, when the negroes retired some three miles and again organized. Gen. Chalmers again advanced and ordered them to disperse, which they did. This is the latest report from there, and it is supposed that the negroes are awaiting reinforcements. Col. Burke and others have already left here for that place, and an effort is being made to organize a force to go down to-night. I think it is similar to the Austin troubles, and is all stirred up by bad men.

New York, Oct. 5.—The United States legal tender club have called a meeting at Cooper Institute for the 13, to form a democratic legal tender state central organization.

The fifth report of the canal investigating commission was made public to-day. It states the financial results of Geo. D. Lord's career as legislator and contractor, with the state, as far as has been investigated, and gives an aggregate of over $185,000 fraudulently paid by, or charged against, the state for work covered by his repair contract of $44,400 a year. It implicates in these frauds several canal commissioners and inspectors, and some members of the the state legislature, and says, in whatever direction the inquiry is pushed, fraud and corruption is encountered at every step.

Denver, Col., Oct. 5.—President Grant and party were met by Governor Routt and a delegation of city officers at Cheyenne, and escorted them thence to Denver on a special train, arriving here at 5 o'clock this afternoon. His reception was enthusiastic. A battallion of soldiers and several thousand citizens participated. The President will, to-morrow, visit Colorado springs, Pueblo, and other points of interest on the Denver and Rio Grande railroad.

Denver, Col., October 5.—The President will arrive here from Salt Lake this evening. He will be received by the city authorities, and escorted to the Grand Central by the Governor's Guard. The Governor and Mayor will meet him at Cheyenne with a special train

The Black Hills Commissioners arrived at Cheyenne yesterday, having totally failed to negotiate a treaty.

Jay Gould, Sidney Dillon and other magnates are on the way here.

Rockford, Ill., October 4.—The Grand Jury of Winnebago county convened to-day. The greatest secrecy regarding their movements in the duel matter has been maintained. The State's Attorney, the Sheriff and officers have been observed during the day in private consultation, and from what has been heard it is evident every nerve will be strained to find a true bill against Edwards and Foster and their seconds. It is also reported that Constable J. W. Sawyer will start for Chicago on the 1:30 a. m. train to subpœna John W. Postgate, the reporter who witnessed the duel. Abraham E. Smith and Robert B. Porter, of the Rockford *Gazette,* will probably be brought before the Grand Jury to morrow. It is also said that Mayor Tinker and Marshal Sully will also be brought up to testify that Postgate told them the whole story. Interesting times are expected.

Alton, Ill., October 4.—Last Saturday night a sad affair occurred at a farm house about five miles east of Edwardsville, the circumstances being as follows: A boy twelve years of age, named Proctor, went to stop at a neighbor's named Dawson, nobody but the children being at home. During the evening some trouble occurred between young Proctor and Dawson, and Proctor started home, but returned soon and commenced pounding on the front door. Being asked who was there, Proctor made no reply, when young Dawson got his father's rifle and fired through the door, shooting young Proctor in the breast, killing him instantly.

St. Louis, Oct. 5.—In the United States Circuit Court, to-day, in the case of A. C. Buell, charged with libel of Senator Chandler, of Michigan, Judge Treat delivered an opinion, in which he said the gravest question in the matter was that of jurisdiction; either the police court of Washington city had or had not jurisdiction of the offense charged. If it had jurisdiction then the criminal court has no right to take cognizance of it. If it had not, then the act of 1874, giving the criminal court jurisdiction over it, was retrospective as far as this case was concerned, and consequently inoperative. The prisoner was ordered discharged.

Cincinnati, O., Oct. 5.—The disease among the horses, known as the epizootic, has within a few days reappeared among the horses in this city. In all the street railway stables the horses are coughing, though none are down as yet. In many private stables the disease is manifesting itself in the swelling of the glands in the neck of the animals. At the lowest calculation 2,000 horses are suffering, more or less, from the disease.

Carlinville, Ill, October 5.—Charles Brink, a well known young man of this city, as the result of uncontrollable passion or some other cause not ascertained, this morning undertook a work of slaughter. He threw an infant in a well, shot, killing almost instantly, his mother-in-law, Mrs. O. Hall, and his wife, and with the same weapon took his own life.

San Francisco, Oct. 5.—At a meeting of the stockholders of the Bank of California, to-day, trustees were elected and will organize to-morrow. It is understood that Mills will be president. The latest reports show that the assets of the bank, with good management, would pay the depositors and leave a balance of one or two million for the stockholders.

Washington, Oct. 5.—The Comptroller of Currency has called upon national banks for their reports exhibiting their condition at the close of business on Friday, October 1st.

Detroit, Mich., Oct 5.—The election of Dr. McLaren as Bishop of Illinois, was to day confirmed by the Standing Committee of the Eastern Michigan Diocese.

THE RUSH TO KANSAS AND COLORADO.

The indications are that the rush to Kansas and Colorado will be greater than ever in 1874. The shortest way to reach the Far West is through St. Louis, the great Mississippi-Valley City, of over 450,000 inhabitants, and thence west over the St. Louis, Kansas City and Northern Short Line, which reaches all the great land grants in the West, and runs six fast Express trains, two more than any other road, between the Mississippi and Missouri Rivers. This road, in the last two years, has expended over two million dollars, besides earnings, in extraordinary improvement of roadway, in relaying its line with best quality of new steel and iron rails, on broad, new ties, and in passenger equipment, having substituted for ordinary cars now reclining chair coaches, with every appliance for comfort and safety, being elegantly carpeted and fitted with dressing rooms, with toilet conveniences for ladies, gentlemen and families traveling with children, *free of any extra charge* Any ticket agent selling through tickets to the West will furnish tickets by this excellent route through St. Louis, over the St. Louis, Kansas City and Northern Short Line, the best and shortest to Kansas, Colorado, Nebraska, California and the Great West, it being the only line running through cars between St Louis and Omaha. For map, circulars and time-tables address either F. A. Palmer, Indianapolis, Ind.; or P. B. Groat, St. Louis, Mo., either of whom will furnish any information desired. [jan 8wtf

ILLINOIS CONFERENCE APPOINTMENTS.

The Illinois Conference of the M. E. Church, which has been in session at Springfield since Wednesday morning last, adjourned last evening about 6 o'clock. We give below the appointments of the Decatur district, with a few others in which Decatur people may feel a particular interest.

DECATUR DISTRICT.

W. S. Prentice, Presiding Elder; Decatur, First Church, W. Horace Reed; Stapp's Chapel, W. D. Best; Decatur Circuit, T. D. Weems; Macon, J. H. Dimmitt; Harristown, D. E. May; Lincoln, J. G. Little; Lincoln Circuit, J. B. Colwell; Mt. Pulaski, J. C. Keller; Clinton, G. W. Gray; Clinton Circuit, W. A. Smith; Maroa, Thomas Hines; Cerro Gordo, John H. Austin; Cisco, W. T. Beadles; Lovington, Abner Pottle; Bement, Joseph Winterbottom; Monticello, M. W. Everhart; Ivesdale, George Moore; Atwood, T. P. Wooten; Illiopolis, James Montgomery; Chesnut, J. T. N. Simmons; Warrensburg, W. D. Hornbeck; La Place, J. R. Locke.

Rev. J. H. Noble is reappointed presiding elder of the Danville district; Rev. W. N. McElroy returns to the First Church at Champaign; Rev. Ira Emerson goes to Grove City, and Dr. Stevenson to Shelbyville. Rev. J. W. Crane, the celebrated traveler, reversed his determination to locate, and takes an appointment at Redmond; Rev. H. O. Hoffman returns to Vermont Street Church, in Quincy. Rev. Mr. Barns, who was expected at Stapp's Chapel, goes to the First Church in Springfield, and Rev. N. P. Heath remains at the North street Church in Danville.

Thunder All Around.—Early last evening a threatening cloud loomed up in the west which seemed to be well-charged with electricity, and for a while there were *signs* of an approaching hurricane. After a little however the clouds got down to business and shed a gentle rain without much "blowing." Showers attended with heavy thunder continued at intervals during the night, the heaviest one taking place between two and three o'clock *this morning*, at which time the clouds literally poured their contents upon the earth. The rain is timely, and will greatly facilitate the growth of wheat.

500 Business Suits, made up from the latest patterns, splendidly trimmed, and warranted to fit, from $10 upward to $25, just received by B. Stine the fashionable clothier. [4-d1m

A Card.—For the information of my friends I wish to say that during my three months wandering over the western, northern and northwestern portions of the State of Texas, I secured about 100,000 acres of what I consider choice farming lands, well adapted to the production of corn, wheat and other small grains, cotton and vegetables of all kinds; 80,000 acres of which have been taken mostly by parties in this vicinity, leaving a balance of about 20,000 acres yet unsold, but equally as good in all respects as the 80,000 acres disposed of. Parties desiring good lands, cheap, will find it to their interest to call upon me at the office of Warren & Durfee.
H. B. DURFEE.

Prince Albert Coats and Vests, the latest novelties in patterns, made up not to be excelled in merchant tailoring, in stock, at bottom prices, at B. Stine's.
Oct. 4-d1m

A Thorough Overhauling.—The building occupied by W. R. Abbott and I. J. Davis & Co., on East Main street, is practically to be rebuilt. A third story is to be added, and an entire new front put in. The front windows of the first story are to be each a solid pane of the nicest plate glass, and those of the second and third stories are to be of the most modern style, and supplied with *freer stone caps.* A handsome block of granite is to be placed at the front entrance, flanked by one of equal dimensions on the right and left, which will serve as a base for the finish under the front windows. When these improvements are completed this will be one of the finest fronts in the city. Mr. Abbott has rented the whole building, and will sub-lease such portions as he does not need for his own business.

Moving.—This will be a week of activity among the Methodist parsons in the central part of this State. On the part of those who have been assigned to new fields of labor there will be a hurrying to and fro. Some time will be required for these men to get down to business, and get the hang of things in their new parishes.]

Choice Dairy Butter, at
24-dtf SYLVESTER BROS'.

Clerical Callers.—Rev. Horace Reed called at our office this morning having with him Rev. W. D. Best, the newly-appointed pastor of Stapp's Chapel.—Mr. Best is a sprightly appearing gentleman and will no doubt meet the wishes of his new people. Mr. Reed remains another year as pastor of the First Church, which will be gratifying to his many friends here.

THE FIRE DEPARTMENT ON THE SITUATION.

Last evening, pursuant to call, the members of the fire department met in their hall. The meeting was called to order by chief engineer, H. P. Christie, who stated that as matters would come before the meeting in which he was personally interested he thought it better for 1st assistant, P. B. Provost, to preside.

Upon motion it was ordered that the 1st assistant preside over the meeting.

Chief Engineer Christie then made a verbal report of the programme of the annual parade of the fire department, following the same with a statement that he understood that the city council had suspended him as chief engineer, without charges being preferred or notice served upon him. He asked the department to appoint a committee to confer with the city council, for the purpose of investigating the cause of his suspension.

W. W. Mason offered a resolution for the appointment of a committee of four to confer with a like committee of the council. Mr. Mason supported this resolution in a speech of marked power and with considerable effect. Mr. Mason contended that as the members risked life and health in saving the property of men who were not members, and did this for nothing, it was but a small matter to give them the choice of their officers, and when one of them was found wanting to give him a fair trial.

Farmer Kern also addressed the meeting in opposition to the acts of the council. Both the speakers were frequently applauded.

The resolution passed unanimously.—The chair called upon the foremen of the different companies to furnish the names of the commitee.

Foreman Foster, of Rescue, declined to name a committeeman; he regarded the action of the meeting premature—they had no official notification of the suspension of Mr. Christie, and until they did he, for one, declined to act.

Foreman Wayne also declined to act.

Foreman Ehrman named Mr. Gates.

After considerable discussion, a motion was made to adjourn, and decided carried by the chairman.

Chief engineer Christie then took the chair, called the meeting to order, and the committee was filled by the appointment of Mason, Gates, Funk and Oakes.

The meeting then adjourned.

PERSONAL MENTION.

Rev. M. S. Kaufman is in town to-day.

Frank Jack returned last evening from a month's visit to his old home in Pennsylvania.

Dr. R. N. Mills left by the 2.45 train this morning for St. Louis, to attend the fair.

The Danville *Times* of Monday, heralds the arrival in that city on that day of G. Marquis Goodman, of Decatur.

Capt. M. F. Kanan and a lot of other Decatur people went to the St. Louis fair by the early train this morning.

Mr. George A. Dean, *formerly* agent of the I. & I. C. Railroad in this city, has changed his residence from Turner Junction, DuPage county, to Prospect Park, in the same county, where, we understand, he is still in the railroad business.

POLICE NEWS.

John W. Smith (not the lawyer) and George Griffin got on a regular bender last night. This morning they were before Justice Albert, who decreed that a drunk of the dimensions of that indulged by John and George was worth three dollars. The boys came down cheerfully with the stamps and went out to celebrate their deliverance from captivity by taking another drink.

READ THIS STATEMENT.

For the benefit of our patrons and all who are suffering from Liver Complaint or any form of Billious disease, we give the following statement of the case of one of the oldest and most prominent citizens of Decatur—Mr. Wm. Lintner, of the firm of Wm. Lintner & Co., furniture and pump manufacturers:

Some eight months ago Mr. Lintner's health began to fail in consequence of billious derangement, and he gradually and steadily grew worse, until his recovery was entirely despaired of by *his friends and many able physicians.* At their suggestion, some three months ago, in company with his son, he went to New York and put himself under treatment at the best medical institution to be found, bringing to his aid all that money and science could command, but instead of encouragement, after three weeks' careful study of his case, Dr. Foster (Clifton Springs, N. Y.) told him his liver was almost entirely hardened and that his case was utterly hopeless, that no medicine could do him any good, and he advised him to return to *his friends, arrange his business affairs,* take no medicine, and live as comfortably as possible so long as he might, which could not be long. He was brought home, given up by *all as beyond human aid.* He laid in a gradually sinking condition, vomiting daily, and looking more like a corpse than a living man, when a friend whose wife had received great benefit from it, requested him to try *Malarion,* which he did, and he began to improve within a few hours after taking the first dose. His vomiting gradually ceased, his bowels became regular, and he grew stronger and better for three weeks, when his friends, becoming hopeful of his recovery, had a consultation, and finding out what he was taking they took Malarion from him and prescribed other medicines, which he took for about a week, when his old symptoms came back upon him, vomiting again set in, and he was forced to return to the remedy which first gave him relief, and since then he has taken no other medicine than Malarion. He has taken less than two bottles, and is to-day nearly a well man, with more youthful vigor and buoyancy, and promise of better health than he has had for years, and he says unhesitatingly, "MALARION HAS SAVED MY LIFE." SNYDER & GUE, General Agents for Malarion.

I hereby certify that the above statement of my case is correct and true.

Notices of the Press:

The ever-increasing circulation of this excellent monthly proves its continued adaptation to popular desires and needs.—Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudice or depraved tastes.—*Boston Globe.*

The character which this *Magazine* possesses for variety, enterprise, artistic wealth and literary culture that has kept pace with if it has not led the times, should cause its conductors to regard it with justifiable complacency. This standard article is compounded with the greatest care.

Its effects are as wonderful and as satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff. It gives the head a cooling, soothing sensation of great comfort, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing, nothing has been found so effectual or desirable.

A. A. Hayes, M. D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Price, One Dollar.

Buckingham's Dye

FOR THE WHISKERS.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color, which will neither rub nor wash off.

ADAMS HOUSE,

FOOT OF LAKE STREET,

Opposite Union Depot. *CHICAGO.*

THE ADAMS HOUSE, SO POPULAR before its destruction at the great fire of 1871, has been rebuilt, and is now open to the public. It is newly furnished in a substantial and comfortable manner, but without the ginger-bread ornamentation, which is so expensive in a hotel, and so useless to the comfort of its guests. The table will furnish wholesome food, well cooked; the beds will always be clean, and the proprietors will in all particulars maintain a home-like, comfortable, quiet, orderly and sensible house, at the popular price of $2,00 per day.

We bespeak the patronage of the traveling community, feeling sure that the general character of the house will give entire satisfaction. BLENIS & MURPHY, Prop's.

Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption,** cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy, it is adequate, on which the public may rely for full protection. By curing **Coughs,** the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis,** when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.
